

# Lighten up.

Save time and money with new,  
lighter CANTEX Forte-Duct®!

Now UL listed.

Your customers  
will be tickled with  
new Forte-Duct® conduit.

It weighs an amazing 25-30%  
less than solid-wall conduit so they  
save big on labor and installation costs.

The unique structural PVC cellular core center  
is what makes Forte-Duct® so incredibly light. Yet it's  
as strong as solid-wall conduit and comparably priced.  
It adds up to less weight and more savings, and it's available now!

**Contact us today to learn more about Forte-Duct®,  
the new heavyweight in cellular core conduit.**
