Date: April 27, 2026
Subject: PVC Fittings and Box Price Increase

CANTEX will implement PVC fittings and box price increases effective June 1, 2026, largely due to significant developments regarding PVC resin pricing impacting the industry. In the first quarter of 2026, manufacturers raised prices by \$.06 per pound. This was followed by a sharp increase of \$.05 per pound in April, with an additional \$.04 per pound announced for May. Altogether, these changes amount to a remarkable 37% jump in resin costs.

Beyond resin pricing, we are also seeing continued increases in the cost of other additives. Additionally, freight expenses are rising rapidly driven by elevated fuel prices. Together, these factors have created a particularly challenging environment for everyone involved.

The approximate increases for June listed are below, and some products may vary.

PVC fittings and accessories	+10%
EZ BOX [®] non-metallic switch, outlet, and ceiling boxes	+8%

Revised price lists reflecting these changes will be sent to you shortly. All orders at current prices must be placed by the close of business on May 29, 2026. We will not be accepting any orders in excess of a customer's normal purchase history at this time.

We appreciate your business and look forward to working with you in the future on all of your PVC electrical product needs. If you have any questions, please feel free to contact your local CANTEX representative or reach out to CANTEX directly.

Regards,

Dave Milius
