Introduction to the EZ BOX® Line

Why CANTEX EZ BOXES?

The CANTEX EZ BOX[®] line offers a complete selection of non-metallic electrical switch, outlet and ceiling boxes in multiple sizes and styles to meet all your new construction and renovation project needs. Whether you need EZ nail-on, single-gang boxes with enhanced angled nails for installation between studs or adjustable EZ BOXES with adjustable brackets for the perfect fit on tile backsplashes, CANTEX has a solution. The EZ BOX line has easy to install, long-wearing, maintenance-free non-metallic electrical boxes for all your projects. You can choose from one of our many wall boxes, which are made of durable easy to install PVC or one of our many ceiling and ceiling fan boxes that are made of polycarbonate for even more strength. CANTEX offers almost 100 styles of EZ BOXES in multiple sizes and gang applications to meet all your new and old work project needs.

EZ BOX Part Number Cross Reference Guide......31

CANTEX EZ BOXES are all ETL or UL listed for use as in the Article 314 of the National Electrical code. They are also 2-hour fire-rated when applicable. Plus, the CANTEX EZ Box line is backed by over 60 years of experience manufacturing unrivaled American-made electrical products. The EZ BOX line is also supported by our long history of providing quality products, great service and fast, dependable delivery.

For over 60 years, our engineers have stayed ahead of the industry by continually seeking ways to improve product designs for better functionality and to insure that our products meet or exceed industry standards. At CANTEX, we know that better functionality translates into important time and labor cost savings for the end user. Special features on our EZ BOXES like angled nails and well-engineered wiring clamps and knockouts are carefully designed for EZ installation. Browse this EZ BOX catalog or visit www.cantexinc.com to learn more about how CANTEX EZ Boxes can make fast and EZ work of residential and light commercial electrical installations.

CANTEX NEW WORK EZ BOXES

Our new work (new construction) switch, outlet and ceiling boxes are perfect for residential and light commercial use. They are carefully engineered to make new work installations EZ and cost effective. Our huge selection of non-metallic electrical new work EZ BOXES offers the versatility needed to meet all new work project specifications with maintenance free, EZ to install electrical, switch, outlet, ceiling and ceiling fan boxes.

THE BENEFITS OF CANTEX NEW WORK EZ BOXES:

EZ Wiring Options

Choice of preferred EZ wiring options like tradi-

EZ Installation Options

EZ to install with enhanced angled nails for easy mounting between studs. Just line

Cost-Saving Solutions

Cost-saving options like our Express Clip® cut down on labor time and cost. Just align a switch or outlet device with the mounting hole, push the device's screw into the Express Clip® and one half turn of the screw completes an EZ and secure installation.

The screw nail option features a sharp point, slotted head, threaded body screw-nail for easy installation using a power screwdriver without having to pre-drill.

Installation Options

Great installation options like molded and metal brackets for specific application needs like steel studs or unusual space between studs.

EZ BOX® New Work Switch & Outlet Boxes

EZ BOX® Old Work Switch, Outlet and Ceiling Boxes

CANTEX OLD WORK EZ BOXES

Our old work (renovation) application switch, outlet and ceiling boxes are perfect for residential and light commercial use. Our large selection of PVC electrical old work EZ Boxes offers several options for meeting all old work project specifications.

Our old work electrical switch and outlet boxes are made of non-conductive, durable, easy-to-install PVC while our old work ceiling boxes are crafted of durable polycarbonate for extra strength. This old work box line is designed for simple installation for old work projects and can also be used on masonry walls when the wall is enclosed. Since our old work PVC EZ BOXES come with their own mounting systems, there is no need to fasten them to studs, which makes electrical work for remodeling projects as EZ as possible. Besides, non-metallic boxes provide an easy-to-install and to change out option, so they are a great electrical installation choice for keeping up with the ever-changing electrical needs that come with technological advancements.

THE BENEFITS OF CANTEX OLD WORK EZ BOXES:

EZ Installation

The molded EZ mount flanges make it EZ to attach our old work boxes to any walls for any old work (renovation) projects. Just insert the box in a freshly cut hole or an existing hole and attach it to the wall.

At Work Behind the Walls

CANTEX EZ BOX old work boxes work behind the scenes to ensure they are locked into place. Winged swing tabs help lock CANTEX EZ BOX old work boxes in place. Just twist and tighten the wing tabs for an added measure of security.

Secure Wire Clamp Options

CANTEX old work EZ BOXES offer a variety of secure wiring clamp options to meet all of your wiring needs.

The Capacity You Need

CANTEX EZ BOXES offer a variety of capacity options to provide room for all of your old work electrical wiring and installation needs.

EZ BOX® Adjustable Switch and Outlet Boxes

CANTEX Adjustable EZ BOXES®

The design of a CANTEX Adjustable EZ BOX lets you adjust the box to most wall thicknesses with a simple screwdriver. The patented brackets on the CANTEX adjustable EZ BOXES are perfect for kitchen and bathroom applications where the type of wall finish often determines the necessary depth.

Our adjustable EZ BOXES can solve most wall covering thickness problems for both old and new work applications because they can adjust from 0 to 1¾ inches after installation. They are also EZ to mount on any standard wood or metal stud. In addition to being engineered for easy, cost saving installation, they are constructed with resilient PVC for durability.

Technical drawings for each product can be found on the product pages at www.cantexinc.com.

EZ BOX[®] Adjustable Single Gang Box

EZ BOX Adjustable, 1-Gang, 21 cu. in., New Work and Retrofit Switch & Outlet Box with Adjustable Bracket

EZ21SBZ-ADJ EZ BOX is the CANTEX 1-gang, adjustable, 21 cu. in., new construction, electrical switch and outlet box with an adjustable bracket that allows adjustment of depth to various drywall thicknesses and wall finishes. It is a perfect solution when a wall covering has already been installed. It is great for construction (new work) and retrofit applications. EZ21SBZ-ADJ is easy to mount to standard wood or metal studs and the adjustable metal bracket will adjust to almost any wall coverings.

EZ BOX® Vapor Proof Switch, Outlet and Ceiling Boxes

EZ BOX® Vapor Boxes

Our energy efficient EZ BOX Vapor Boxes are a great solution for meeting the needs of the energy efficiency requirements of modern homes. These new construction (new work) vapor-tight boxes feature offset flanges covered with foam gaskets and additional gaskets over cable entry points, creating a vapor tight seal. EZ BOX Vapor Boxes are engineered for easy, cost saving installation and constructed with resilient PVC for durability. They are great for exterior walls, garages, sunporches and any spaces that may be subject to unwanted air-flow. They also meet all applicable NEMA specifications.

EZ BOX® Switch and Outlet Vapor Boxes

EZ BOX 1-Gang, 23 cu. in., New Work, Nail-on Vapor Proof Box with Wire Clamps and Gasket

EZ23SN-RG is a 1-gang, new work, vapor-proof EZ Box. It is an energy efficient electrical box for walls subject to unwanted air-flow. It eliminates air leaks with a solid drywall flange covered with a foam gasket and additional foam gaskets over 4 self-clamping cable entry clamps. These foam gaskets create a vapor-tight seal preventing air from flowing through the box. The 23 cubic inch EZ Box is the largest 1-gang box in the industry. EZ23SN-RG also feature enhanced angled nails for EZ secure installation.

EZ BOX[®] Low Voltage Divider

EZ BOX Low Voltage Divider for Use with Multi-gang Heavy Wall Boxes

EZLVD-SW EZ BOX low voltage Divider is used with heavy wall PVC electrical boxes to allow the installation of a communication device in a closed back multi-gang deep box along with a standard switch or outlet device. EZLVD is used with the following CANTEX multi-gang heavy wall EZ BOXES: EZ35DN-HW, EZ53TN-HW, and EZ64QN-HW.

- •Transforms a multi-gang Heavy Wall box into a high and low voltage box
- Orange color easily identifies the low voltage application

Low Voltage Divider

EZ BOX® Red Alarm Boxes

EZ BOX® Red Alarm Boxes

CANTEX Red Alarm EZ BOXES have the same enhanced installation features as our other boxes, but their bright red color makes them easily identifiable for fire safety applications. These designated red boxes are the best option for fire alarms or smoke detectors, since the bright red color makes them easy to identify as alarm as smoke detector boxes.

EZ BOX[®] Single Gang Red Alarm Boxes

EZ BOX 1-Gang, New Work, Nail-On, Red Alarm Boxes with Knockouts

EZ18SNA, EZ20SNA, and EZ23SNA are 1-gang new work alarm EZ BOXES that are ideal for residential and light commercial new construction (new work) applications for alarms and smoke detectors. These 1-gang box red alarm boxes feature the same enhanced installation features as our other boxes, but their bright red color makes them easily identifiable.

EZ BOX® ENT Boxes

EZ BOX® ENT (Electrical Non-Metallic Tubing) Boxes

Our EZ BOX ENT boxes are designed for use with our other light, flexible and strong ENT (Electrical Non-Metallic Tubing products. With specifically designed concentric knockouts, they are perfect for creating ENT electrical systems with ENT Tubing and ENT fittings in walls, floors and non-plenum ceiling spaces. All our PVC ENT products are made of resilient non-conductive PVC that won't corrode or conduct electricity and can be used with ENT snap-in fittings or standard Schedule 40 fittings.

EZ BOX® ENT Switch and Outlet Boxes

EZ BOX ENT 1-Gang, 16 cu. in. Switch or Outlet Box

EN16SB is a 1-Gang, 16 cu. in., ENT switch or outlet box designed for use with electrical nonmetallic tubing (ENT) and standard electrical devices and switches in residential and light commercial applications. EN16SB features molded flanges and three 1/2 inch knockouts for EZ installation and multiple connections.

Three 1/2 inch knockouts for EZ installation of ENT fittings.

Why CANTEX?

- Over 60 years of manufacturing American-made electrical products.
- Proven track record for quality and service.
- Nationwide distribution system for fast delivery time.

CANTEX

Your Single-Source for ALL PVC Electrical Products

Would you like to learn more about our quality non-metallic EZ BOXES?

Contact your CANTEX sales agent or electrical distributor.

If you don't know who to contact, visit www.cantexinc.com and use our agent search tool or call CANTEX at 817-215-7000.
