Dimensions are nominal

DB60 Split Coupling is used for joining Split Duct to existing duct when repairing broken or damaged conduit and wires are present.

- For use with EB & DB conduit
- Side split to enable installation without cutting existing wire or cables
- For use underground
- Fabricated from DB60 conduit
- Made in USA

## PVC Fittings & Accessories for the Power Utility and Communication Markets

CANTEX offers a complete line of Fittings and Accessories for the extensive Power, Utility and Communications markets.

All of our PVC fittings are easy-to-install and offer non-conductivity, high impact, tensile strength, industry certifications (where applicable), and resistance to a wide range of chemicals, acids, and salt. Our DB Fittings and Accessories are perfect for direct burial and/or encased burial applications. Since they connect seamlessly with other DB & EB utility products, they make it easy to convert entire electrical infrastructures to PVC through a single source—CANTEX.
