To Whom It May Concern:

CANTEX Inc. does not utilize any of the chemical substances listed under the Safe Drinking Water and Toxic Enforcement Act of 1986, better known as Proposition 65 (instituted in the state of California), for the manufacturing of any of its extruded, fabricated, or injection molded products.

Furthermore, the Safe Harbor numbers indicated on the chemical list of No Significant Risk Levels (NSRLs) and Maximum Allowable Dose Levels (MADLs) – established in regulation in Title 27, Cal. Code of Regulations, Sections 25705, 25709, and 25805 – were analyzed as well and determined to be non-applicable to CANTEX products.

Sincerely,

Orville Medina
Manager of Technical Services
CANTEX INC.
